

AMRITHA

AI Development Intern | Python & Data Analyst

8075325637 | [Gmail](#) | [LinkedIn](#) | [Portfolio](#) | [Instagram](#) | Palakkad, Kerala, India

OBJECTIVE

BCA graduate and current intern at Excape AI, building practical experience with AI tools, structured prompting, AI-assisted websites, design and video creation. Developing Python and data-analysis skills through independently coded mini-projects and current NumPy practice.

EXPERIENCE

AI Data Intern | *Excape AI, Malappuram (On-site)*

June 2026 – Present

- Explore and evaluate new AI tools for practical creative and development workflows.
- Use structured prompting, output testing and iterative refinement across ChatGPT, Gemini and other AI platforms.
- Build and refine AI-assisted portfolio and website projects using tools such as Lovable and Antigravity, with deployment on Vercel.
- Create AI-assisted design and video outputs, including work with Google Flow and Pomelli, while checking results against project requirements.

TECHNICAL SKILLS

- **AI & Generative Tools:** ChatGPT, Gemini, Google Flow, Antigravity, Pomelli, Lovable, Vercel
- **Programming & Data:** Python, NumPy fundamentals, OOP, functions, loops, lists, dictionaries, file handling, CSV handling, exception handling
- **Workflow & Deployment:** Prompt engineering, AI output testing & refinement, Git/GitHub, Vercel
- **Currently Learning:** NumPy and data-analysis fundamentals

PROJECTS

Personal Finance Manager | *Python*

- Tracks categorized expenses, calculates savings, summarizes finances and warns when a fixed budget is exceeded.

Automated Employee Payroll System | *Python, CSV, OOP*

- Reads employee hours from CSV, calculates salary with tax deductions using OOP principles and exports payroll.csv.

EDUCATION

University of Calicut

2023 – 2026

Bachelor of Computer Applications (BCA)

MES School, Olavakkode, Palakkad

2023

Higher Secondary — Computer Science (Kerala State Board)
